

LRC Quick Guide – Elluminate Live for Students

1. Log in to Sakai with your Onyen and Password and click on the course site tab of the language class in which you are enrolled.
2. From the menu bar on the left of the course site, click on “Elluminate Live Bridge.”
3. Click on the current session you have been assigned to join.

4. Click “Join” to enter the Elluminate session. You will be asked to download the app. Click “Open” or “Save” to download.
5. Upon entering the session for the first time, you should run the audio setup wizard by clicking the icon at the right of the “Audio and Visual” box. Here you will be able to test your speakers and microphone of your headset or alternate device.
6. Once audio setup wizard is successful, you may click the “Talk” button to communicate with your group. When you are finished speaking, click the talk button again to turn off your microphone. Only three people may speak at once.
7. At the bottom of the sidebar, you can chat with the group or you can create a private chat session (Note: all chat activity can be seen by the session moderator).
8. The four buttons in the “Participants” box will allow you to react to discussions with quick emoticons, step away momentarily from the session, “raise your hand,” and respond to a poll.
9. At the end of the session, click “File” → “Exit” to leave the session permanently.
